FISCAL DECENTRALIZATION AND BUDGET CONTROL (HARDBACK)

Edward Elgar Publishing Ltd, United Kingdom, 2016. Hardback. Book Condition: New. 234 x 156 mm. Language: English . Brand New Book. How can governments control spending pressure from influential groups, often representing powerful regional interests? This book is concerned with institutional solutions that allow modern nation states to balance historically grown cultural, political and economic diversity. Laura Von Daniels combines different literatures in economics and political science, and draws on interviews with former government leaders, and country experts from international organizations. She applies this research to topics such as fiscal institutions and budget balances, presenting a critical review of different institutional approaches to resolving fiscal imbalances and public indebtedness. Students and scholars of various disciplines, including politics, public and social policy, economics and business will find the discussions and detailed description of institutional reforms in emerging market nations to be of use to their research. It will also be of interest to practitioners working on fiscal decentralization and budget control.
