

Spinoff 1999

Filesize: 5.05 MB

Reviews

This pdf might be well worth a study, and a lot better than other. It really is simplistic but excitement inside the fifty percent in the book. Its been printed in an exceedingly straightforward way which is just after i finished reading this ebook through which really modified me, modify the way i believe.

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.In this year 1999, we find ourselves on the threshold of a new century with its exciting discoveries to come and challenges to meet. Clearly in the last decades of this century, some of our most significant achievements in industry and our lifestyle have been brought about by new technology. We can expect this trend to continue and perhaps accelerate. Because of the great scientific and technical challenges of NASA missions, the demands of our programs result in many new technological discoveries. Meeting the NASA aeronautical and space goals has necessitated cutting-edge technical advances across a broad spectrum that embraces virtually every scientific and technological discipline. As in previous years, we are proud to present Spinoff 1999 as one demonstration of the successful transfer of NASA technology, resulting in products and services that benefit you, members of your family, and your business or industry. Research and development in such fields as advanced sensors, new materials, enhanced digital imaging techniques, advanced power systems-to name a few-have generated technology for decades. Multiple uses of NASA technology have never been easier and more in line with industry needs and practices. U.S. industry, by working in partnership with NASA during the development phase of new technology, can speed the application of that technology to new products and services, thereby reducing time to market and public availability. Moreover, dual-use of NASA technology offers a less costly, complementary means of bringing new products to market. More than 1,200 Spinoff products and processes have emerged from the multiple uses of technology needed for NASA missions. Each has contributed some measure of benefit to the national economy, productivity, or quality of life-some with moderate contributions, but...
