### ***Reviews***

*A must buy book if you need to adding benefit. I have read through and i also am certain that i will likely to read through once again yet again in the future. Its been designed in an exceedingly simple way and is particularly merely after i finished reading this publication by which really modified me, modify the way i think.*

## GLASS OF FOUR MILLENNIA (HARDBACK)

Ashmolean Museum, United Kingdom, 2006. Hardback. Book Condition: New. 210 x 150 mm. Language: English . Brand New Book. This book charts the development of Glass over four millennia -- from 18th Dynasty Egypt, through to the present day -- illustrated by 56 examples from the collections held by the Ashmolean Museum. The earliest fragments are from a Mesopotamian glass beaker, dating from the 15th/14th century BC and found relatively recently in Iraq; the earliest complete piece is a small, green fish-shaped dish from Ancient Egypt dated 1400/1300 BC. The invention of glass-blowing in the first century BC revolutionised the glass industry -- two early Roman vessels are illustrated -- the later discovery of the moulding process is illustrated by moulded bottles from Northern France. Most of the later examples are English, from early eighteenth-century wine bottles and engraved wine glasses, including examples by William Beilby and an Amen glass c1740/50, ending with the contemporary Finzi bowl engraved by Lawrence and Simon Whistle c.1981 to commemorate the composer Gerald Finzi (1901-56).
